I like that I can simply type "weather" into Google and it gives me a beautiful and compact visual summary of my local weather.	3/13/2015 6:21 PM	<a href="#">View respondent's answers</a>
Accuweather is pretty good on a mobile device, but is pretty clunky on the desktop...seems there is room for improvement there. Also, personally, I think it would be fun to see a overlay type visualization of actual weather compared to what had been projected.	3/13/2015 1:49 PM	<a href="#">View respondent's answers</a>
